

## QUICK GUIDE TO INFORMATION ON THE WEB ABOUT THE PENN STATE WORKFORCE EDUCATION & DEVELOPMENT INITIATIVE

The mission of the Penn State Workforce Education and Development (WED) Initiative is to support the development of the workforce in Pennsylvania primarily through the application of Penn State resources to conduct economic and workforce analyses for employers, industry partnerships, nonprofit organizations, and government entities. The Penn State WED Initiative is the result of a memorandum of agreement between Penn State's College of Education and Penn State Outreach. The Initiative is in the midst of its second three-year agreement, an alliance that is renewable in July 2009.
